or
- 1 Normal (3 gun models) A class Medium Artillery Battery, gunners Unarmoured and armed with hand weapons and tools only

AUTHOR'S NOTE

Huge thanks to AWI expert Brendan Morrissey who compiled these supplementary lists, which should be viewed in conjunction with the British and American lists that appear on page 393 of the book. They each add 50% to the forces previously listed and should always operate in conjunction with those listed. Of course, I would encourage you to fight campaigns and play using the forces available according to the situation!
